

Imported Designs of Tatting Book #77, 1936

With a clear photo and a numbered diagram, the tatter can recreate all the patterns in this book, "Imported Designs of Tatting #77" easily. This booklet was published with photos of the tatting only. No instructions, no patterns.

Motif #8163

This simple triangle may be tatted as rings surrounded by chains or as "onion rings", i.e., rings around rings. Begin at the side set of two small rings.

R 5 - 5 clr dnrw Leave no space and repeat ring. RW
CH 5 - 5 rw

*Inner ring 15 - (small) 15 clr dnr. Rotate ring to the right slightly and begin outer ring.

R 7 + (join to last small ring) 4 - 4 - 4 + (onion ring join) followed by picot 4 - 4 - 4 - 7 clr rw
CH 5 - 5 rw

R 5 +(join to last picot of outer ring) 5 clr dnrw Leave no space and repeat ring. RW
CH 5 + (joint to previous chain) 5 rw*

Repeat * to * twice more joining last small ring to the last picot of the outer ring of last onion ring.

Notes: The original model shows great gaps of thread between the bottoms of the small side rings. To prevent this gapsosis, leave no space between the close of the first ring and the first half stitch. The three picots which join the chains need to be regular in size so that one space is not larger than the next.

Onion Ring join
