Tatting Patterns & Shuttles

Revised by The Online Tatting Class 2026

theonlinetattingclass@gmail.com

On behalf of Georgia Seitz and The Online Tatting Class we would like to thank the many designers and tatters that have helped build the class library to what it is today. Without all those involved tatting would not be where it is today. Thank you for helping share the Art of Tatting.

Material:

Worked with thread-size 20 this star has a diameter of about 9 cm.
2 shuttles are needed. They are called 'blue shuttle' and 'green shuttle' for distinction.

Used Techniques:

Split-rings (resp. reverse tatting).

Instructions:

Start with ring A in the diagram and work 10 double stitches (ds) with the blue shuttle. Work the second part of the ring with the green shuttle as follows: picot (p), 5 ds (reverse tatting (rt)). Now work

ring B (green shuttle): 5 ds, p, 5 ds;

continue ring A with the green shuttle making 5 ds (rt), then work

ring C (green shuttle): 5 ds, p, 5 ds, p, 5 ds, p, 5 ds;

go on with ring A, again with the green shuttle and 5 ds (rt), then

ring D (green shuttle): 5 ds, p, 5 ds;

and finish ring A with 5 ds (rt) with the green shuttle. Close ring A.

Rings E, I and M and their corresponding sub-rings are worked the same, leaving out the first picot with the green shuttle.

Ring Q is started with 10 ds with the blue shuttle as well. Now make a join to the corresponding picot of ring A (see the diagram as a reference) and work 5 ds with the blue shuttle. The second part with the green shuttle is worked according to the above description up to the large ring (ring S). After ring S work 5 ds (rt) with the green shuttle, then close ring Q. With both shuttles work another split-ring T consisting of 5 ds with the blue shuttle and 5 ds with the green shuttle (rt).

Ring U again is a split-ring: Work 2 ds with the blue shuttle, join to ring B, 5 ds, then take the green shuttle to make 5 ds (rt). With the green shuttle follows the outward-facing ring V, which consists of 5 ds, p, 5 ds.
(* Now work

chain (blue shuttle): 3 ds.

ring (blue shuttle): 5 ds, join according to the diagram, 5 ds.

chain (blue shuttle): 5 ds, p, 3 ds, p, 5 ds.

ring (blue shuttle): 5 ds, p, 5 ds, joint according to diagram, 5 ds, p, 5 ds.

ring (green shuttle): 5 ds, p, 3 ds, p, 3 ds.

ring (green shuttle): 3 ds, join to last picot of previous ring, 5 ds, p, 3 ds, p, 3 ds, p, 5 ds, p, 3 ds.

ring (green shuttle): 3 ds, join to last picot of previous ring, 3 ds, p, 5 ds.

chain (blue shuttle): 5 ds, p, 3 ds, p, 5 ds.

ring (blue shuttle): 5 ds, join according to diagram, 5 ds.

chain (blue shuttle): 3 ds.

ring (blue shuttle): 5 ds, join according to diagram, 2 ds, join according to diagram, 5 ds.

ring (green shuttle): 5 ds, p, 5 ds.

*)

Repeat from (* to *) four times, stopping after the last chain with the blue shuttle. Join to ring U.
